

Press Release

Ling-GO: The Future of Immersive Language Learning

Ling-GO is a revolutionary language learning app offering a fully immersive experience through augmented and virtual reality on Apple Vision Pro. Designed for language learners of all levels, Ling-GO brings real-world practice into your home, making fluency more attainable than ever.

The best way to learn a language is through immersion, but not everyone has the opportunity to travel or interact with native speakers daily. Traditional methods like textbooks and apps often fall short in providing the real-world context necessary for mastering a new language.

Ling-GO leverages the power of Apple Vision Pro to create interactive, real-world scenarios where users can practice speaking, listening, and engaging in everyday conversations. Through AI-driven simulations, real-time feedback, and immersive environments, Ling-GO makes language learning natural and effective.

“Language learning should feel intuitive and engaging. With Ling-GO, we’re breaking down barriers and making fluency more accessible through cutting-edge AR and VR technology.” – Kati Putman, Content/PR Specialist at Ling-GO

Downloading Ling-GO on Apple Vision Pro is quick and easy. Simply set up your account, choose your target language, and step into a virtual world where learning feels like real-life practice.

“I’ve tried so many language apps, but nothing compares to Ling-GO. It feels like I’m actually living in a new country without leaving my home!”
– Hypothetical Customer

Ling-GO is set to redefine how we learn languages. Don’t just study, experience it! Visit the app store to start your immersive journey today.

Ling-GO!

Frequently Asked Questions

.....

WHAT IS LING-GO?

Ling-GO is an immersive language-learning app designed for Apple Vision Pro. It uses augmented reality (AR) and virtual reality (VR) to create interactive real world scenarios that help users practice speaking, listening, and engaging in conversations naturally.

HOW IS LING-GO DIFFERENT FROM OTHER LANGUAGE-LEARNING APPS?

Unlike traditional language apps, Ling-GO provides a fully immersive experience using AR/VR technology. Instead of memorizing vocabulary lists, users engage in real-life situations, making learning more effective and engaging.

WHO IS LING-GO DESIGNED FOR?

Ling-GO is designed for learners of all levels, from beginners to advanced speakers. Whether you're starting from scratch or looking to refine your fluency, Ling-GO adapts to your skill level.

HOW DOES LING-GO WORK?

Ling-GO places users in realistic VR scenarios where they can practice conversations with AI-driven characters. The app provides real-time feedback on pronunciation, grammar, and fluency.

DOES LING-GO SUPPORT REAL-TIME CONVERSATIONS WITH NATIVE SPEAKERS?

Currently, Ling-GO features AI-driven language partners that simulate native speakers. Future updates may include live conversation rooms to connect users with real native speakers.

Frequently Asked Questions

.....

WHAT DEVICES ARE COMPATIBLE WITH LING-GO?

Ling-GO is designed exclusively for Apple Vision Pro and takes full advantage of its AR/VR capabilities.

HOW DO I INSTALL LING-GO?

You can download Ling-GO directly from the App Store on your Apple Vision Pro device. Simply follow the on-screen instructions to set up your profile and start learning.

DO I NEED ANY ADDITIONAL ACCESSORIES?

No additional accessories are required. Ling-GO utilizes the Apple Vision Pro's built-in sensors, eye tracking, and spatial audio for a seamless experience.

IS LING-GO FREE TO USE?

Ling-GO offers free lessons!

DOES LING-GO SUPPORT MULTIPLE LEARNERS ON ONE DEVICE?

Each user needs their own profile, but multiple accounts can be created under a single subscription for families or educational use.

WHAT SHOULD I DO IF I ENCOUNTER TECHNICAL ISSUES?

For support, visit our Help Center within the app or contact our customer support team through our website.
