

- App name: Locus
- Subtitle: Immersive language learning
- Description: Locus is a revolutionary language learning app offering a progressive experience through spatial computing and generative AI on the Apple Vision Pro. Designed for language learners of all levels, Locus offers active, real-world practice, making travel more fluid and fluency more attainable than ever.
 - **AI-Powered Language Coach**
Get instant, conversational feedback from a generative AI tutor that adapts to your level and learning goals. Practice speaking, listening, and comprehension in natural dialogue formats.
 - **Immersive Learning Environments**
Step into spatial workspaces that simulate real-world settings—like cafes, airports, and markets—allowing you to practice vocabulary and phrases in context.
 - **Real-Time Pronunciation Correction**
Improve your accent and fluency with smart voice analysis that offers corrective guidance, visual feedback, and repetition exercises.
 - **Multi-Sensory Engagement**
Leverage Vision Pro’s spatial audio and visuals to reinforce memory through sight, sound, and interaction—making each lesson more memorable.
 - **Seamless Progress Tracking**
Visualize your learning journey with intuitive dashboards and milestone markers that keep you motivated and on track.

Privacy

The New Media Institute at the University of Georgia built the **Locus** app as a free app. This service is provided by the New Media Institute at the University of Georgia at no cost and is intended for use as is.

This page is used to inform visitors regarding our policies with the collection, use, and disclosure of Personal Information if anyone decided to use our Service.

If you choose to use our Service, then you agree to the collection and use of information in relation to this policy. The Personal Information that we collect is used for providing and improving the Service. We will not use or share your information with anyone.

We **do not** collect any personally identifiable information

We **do not** use any third-party services that may collect information used to identify you.

We **do not** use third-party tools to collect log data.
